

REMARKS

This is a full and timely response to the Notice to File Corrected Application Papers mailed on November 14, 2011 (the "Notice"). Reconsideration of the application in light of the above amendments and the following remarks is respectfully requested.

In the Notice, Applicant was required to amend the application to account for the original specification not including a description of claim 12 in the Brief Description of the Drawings. Accordingly, the specification is amended herein to include the following statement in the Brief Description of the Drawings: "FIG. 12 is a diagram of an exemplary subroute tree data structure."

Support for this amendment is found in Applicant's originally-filed specification at, for example, paragraph 0090 (paragraph 0108 in the application published as US 2005/0144298). Therefore, no new matter has been added.

Following entry of this amendment, the application should be in condition for immediate issuance.

Respectfully submitted,

DATE: 13 January 2012
